

GRADUATE PROFILE

SPRING 2023

This May, South Louisiana Community College graduated 643 college students, 81 of which were dually enrolled in high school. In addition, 51 Adult Education students completed high-school equivalency training. More than 650 industry-based certifications were earned by 480 individuals from across Acadiana. Many of these residents will be entering our local workforce and/or moving forward in their educational journeys. As we work to increase the number of Acadiana residents who hold valued industry-based credentials and college degrees, SLCC is proud to be a key partner with each local community to help with workforce needs and move our parishes forward through higher education. Here's a quick look at the graduate credentials from Spring 2023.

Application Software Development	7	Diesel Powered Equipment Technology*	1
Business	57	Electrician	4
Business Administration & Business Office Technology*	1	Heating, Air Conditioning, & Refrigeration*	1
